

APPLY YOUR KNOWLEDGE

Look at the waveforms below and label them with one of the following terms:

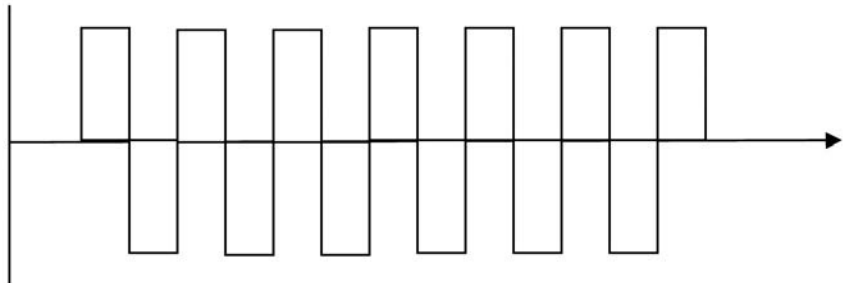

Direct Current

Alternating Current

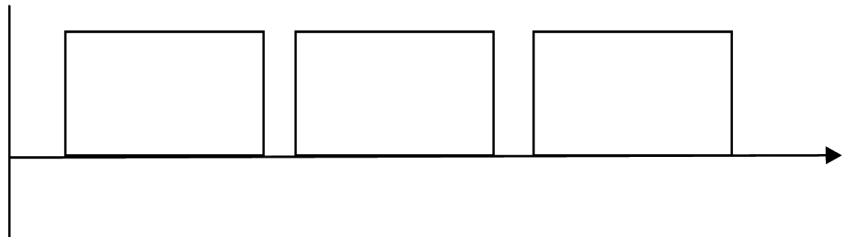

Pulsed Direct

Pulsed Alternating

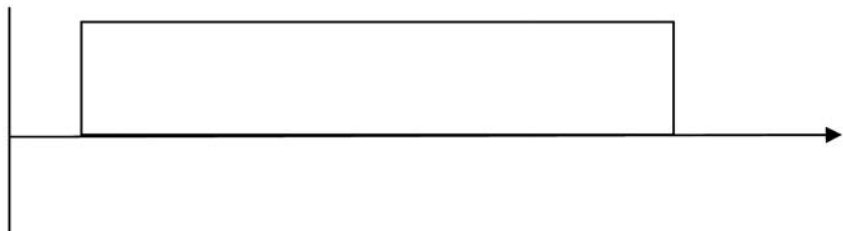

Waveform 1= _____

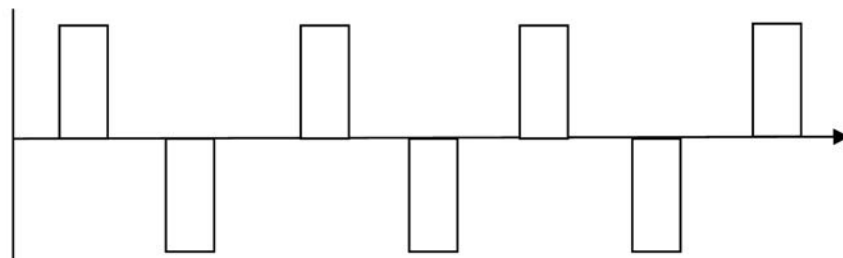

Waveform 2= _____

Waveform 3= _____

Waveform 4 = _____

When setting up electrical stimulation treatments, there are several factors to take into account. The final determination of the treatment set up will depend on the procedures in your clinic and what the chiropractor prescribes. Review the 7 basic points to think about when setting up a treatment regimen on **pages 175-176**.
